

Isolated, High Risk & Lone Worker Alarm

Safe-Life Pendant

The Smart Caller 'Safe-Life Pendant' is a 'Go Anywhere' personal emergency alarm that helps provide, safety, independence and security.

Working off the 3G Cellular network, it works in the home, a business, at the shopping mall, in a field or even a forest.

Wherever there is 3G coverage, the Safe-Life Pendant can put you in contact with someone to help you, or locate you in an emergency.

Emergency SOS NZ Wide

The Safe-Life Pendant is ideal for anyone at risk of duress, medical issues, working alone or isolated. At the single press of a button, they can notify up to 3 responders that help is needed.

Location Finding

With inbuilt location finding technology, the pendant will automatically SMS the location to the responders in the event of an SOS or Fall activation. The location can easily be found on Google Maps by clicking the link and responders can track the pendant manually if required.

Fall Detection

The Safe-Life Pendant is a waterproof 'Go Anywhere' pendant, worn with a lanyard, just like a necklace. Any time help is needed, just push the button on the pendant once and the Safe-Life Pendant puts you in contact with someone that can assist you.

With Smart Caller Safe Life Pendants you can feel secure in your own home, at a business, in a shopping mall, working at heights or even in a farmers field. They are simple, easily accessible devices that can make a world of difference in an emergency.

Ensuring that every worker returns home safely at the end of a hard day's work is an employer's most basic responsibility. Safe Life Pendant is a cost effective and simple solution that allows you to do just that.

Features

No Monitoring Fees - Works at home, business, shopping mall, in a field or beach - wherever you have 3G cellular coverage you will have a working alarm. If you need help simply press the SOS button and a personalised "Help" message will be sent to up to three programmed recipients. Included in this text will be the GPS co-ordinates of your location which can be viewed immediately via Google maps. On receiving this Help message the recipient can dial in for quality two way speaker phone voice contact without the wearer having to answer the call. Waterproof pendant and desktop charger/docking station also included. Battery life 3 to 4 days with low battery reporting.

Spark & Vodafone 3G Network - Make sure to order the version to suit the carrier that gives you the best coverage for your location, either Spark or Vodafone.

Falls Detection - For those working at heights, the pendant includes fall detection with 10 second delay to cancel false alarms.

Location Finding - If you are wanting to locate an employee or contractor simply text "Loc" (for locate) anytime and the Safe-Life Pendant will respond by returning an SMS with the user's location. This SMS will contain the Google Maps link, simply tapping the link will display the location of the pendant on Google Maps.

Receiving & Making a Normal Phone Call - Call into the Safe-Life Pendant anytime and the incoming call can be answered by the user pressing the SOS button momentarily. Press and hold the discreet side call button to make a normal phone call to the first emergency contact.

Geo Fence - You can set three GEO Fences so if a person enters or leaves an area, the persons monitoring the units will be notified by SMS of GEO Fence being broken. Great for keeping contractors out of restricted areas, or knowing if someone wanders out a house door they are not supposed to.

Other Features Include - Professional Monitoring Option, Movement Alarm and Over Speed Alarm. Password Protection.

Easy To Programme - Simply programme the Safe-Link Pendant by texting commands from any mobile phone. Easy to follow instructions.

Sim Card - Requires an activated SIM card and network coverage (not supplied). Can be programmed for sending SMS only or SMS followed by dialling out to the recipient. The waterproof Safe-Life Pendant as an internal SIM card and a small Phillips head screw driver is required to open and insert the SIM. Screw driver not supplied.

Four Different Colours - The Safe-Link Pendant is available in 4 colours. Black, Blue, Pink and Green. Black is the default colour and this will be supplied unless a different colour is selected. Sometimes not all colours are available.

New Zealand's Best 'Go Anywhere' Emergency Alarm Pendants & Communications

A lone worker safety solution is the most comprehensive way to protect your employees. To improve the safety and productivity of the Lone, Remote, Isolated, High Risk workers you employ, a Safe-Life Pendant is the first line of assistance should a worker require it - either through their safety being compromised, accidental falls,

or if they simply require monitoring for a period of time because of a perceived risk.

The Safe-Life Pendant is simple & easy to implement, administer and amend in line with the needs of your organisation.

With the Safe-Life Pendant the wearer has an alarm which is always within reach, a nationwide coverage within 3G networks, location traceable, giving a comprehensive lone worker protection with easy wear, discreet use and emergency support if they should ever need it.
